ADA, Grants & Direct Payments

2009-2018

Introduction

Support to the agricultural sector in Kosovo has continued also during the 2018, this sector is supported through direct payments and rural development measures (Grants). Supported measures under the Rural Development Program address the specific needs of the agri-food sector and rural areas of Kosovo, are in full coherence with the EU-funded IPARD program to support candidate and pre-candidate countries to develop and strengthen the agriculture and rural development sector to be competitive in the local and EU market. Given the fact that Kosovo is already determined for a future in the EU, the Ministry of Agriculture, Forestry and Rural Development has started to align its policies with the Common Agricultural Policy (CAP). Each year, with the support of rural development measures grants, direct payments, significant progress is being noted in all sub-sectors of agriculture, the progress of the process over the years has also been presented in this report.

Direct Payments

In 2018, MAFRD continued supporting farmers through direct payments. Farmers that were supported from these payments are farmers that mainly engaged in the cultivation of grain, corn, wheat seeds, barley, rye, sunflower, vineyards, open field vegetables, existing orchards, organic farming and in 2017 for the first time the wine was supported. From 2010 to 2018 the subsidies have increased steadily from € 2,367,420.00 million in 2010 has reached € 29,645,668.19 million in 2018. From the total amount of support for this period of time 2010 ro 2018, grain had the largest amount benefited 44,660,150.40 mil €, followed by dairy cows 26,438,210.00 mil €, corn 14,932,998.10 mil €. The following figure shows more about the value gained in different cultures.

2010-2018 in this period of time, the largest amount of subsidies was for grain followed by dairy cows, corn, sheep and goats as these sectors have started to be supported almost from the start when direct payments have begun to apply. While other sectors that have begun to be supported later or have been supported earlier but the cultivated area and the number of farmers applying has been smaller, there are smaller values of subsidies.

The following figure (12) shows that the largest number of beneficiaries for direct payments from 2010-2018 were the grain growers with total 85,817 beneficiaries, milk cows 56,100 beneficiaries, then in the list of the largest beneficiaries were also growers of corn with a total of 44,271 beneficiaries. The number of farmers receiving direct payments has increased steadily from 2010 to 2018.
